

One brain, in four bodies

From an end-to-end cloud platform to app Robots, a desk droid and humanoid Robots. The same tuned intelligence, with more embodiment at every step

The intelligence never changes, only how you meet it

Every tier runs on the same tuned Gensact brain and your own data. Move up the lineup and the brain gains a body, from a screen, to your pocket, to your desk, to the room. Buy one tier or grow through them, the intelligence carries across.

01

SOFTWARE

Cloud SaaS platform

Connect your data and get started, no infrastructure to build

02

MOBILE

App Robots

Your business brain as an interactive Robot in your pocket

03

GADGET

Desk droid

A companion that sits on your desk and shows you what it means

04

ROBOTICS

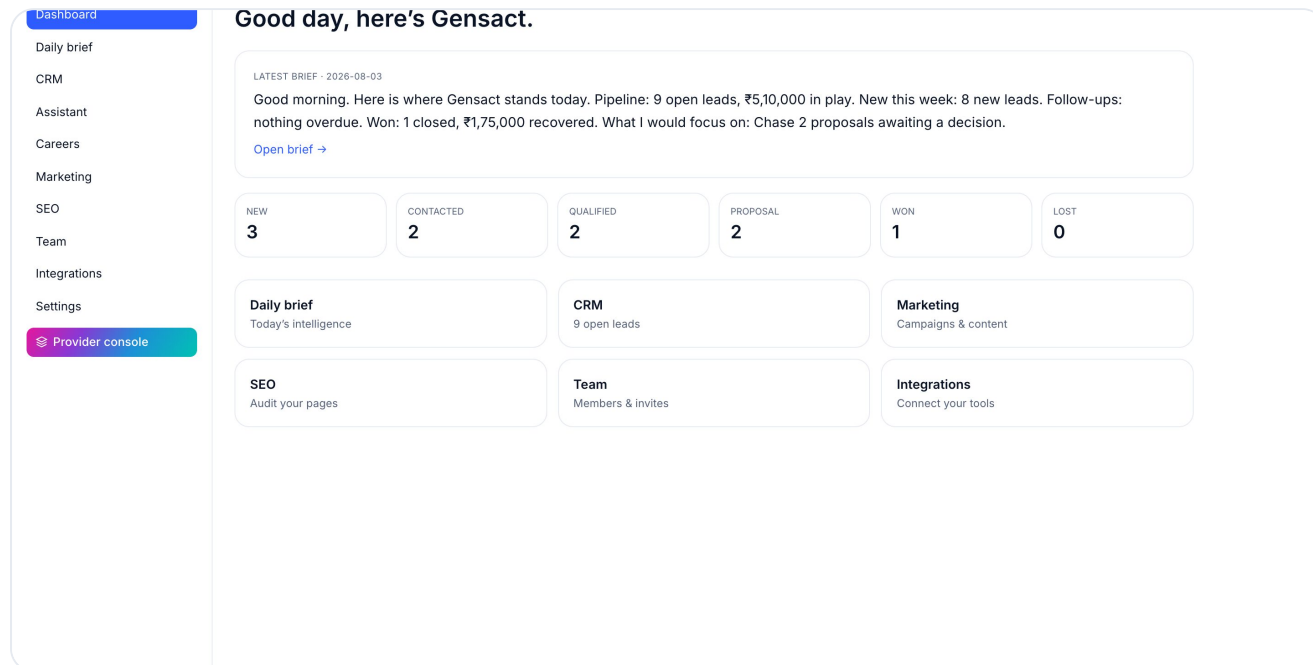

Humanoid & lifestyle Robots

Intelligence, embodied, and part of everyday life

The platform is live today. The app Robot, desk droid and humanoid forms are rolling out, talk to us about early access.

Cloud SaaS platform

Connect your data and get started, no infrastructure to build

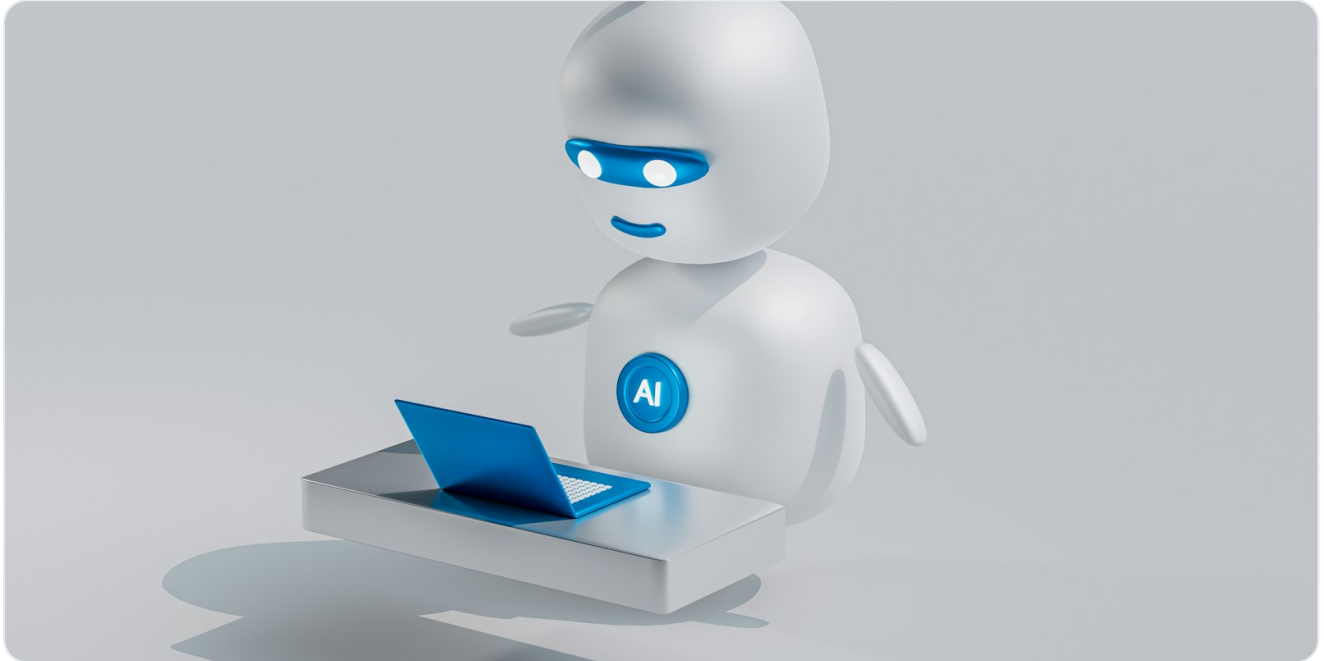

The brain, delivered as a service. An end-to-end, cloud-based platform that runs your intelligence, sales, hiring and marketing from one dashboard. Point your database and tools at Gensact and you are live.

- End-to-end multi-tenant SaaS, isolated to your workspace
- Connect your database and tools, then go, live in a day
- A full dashboard across every module
- One tuned AI engine, calibrated for consistent results
- APIs to connect your systems to us, expanding over time

FORM FACTOR — WEB DASHBOARD, ON ANY SCREEN

App Robots

Your business brain as an interactive Robot in your pocket

The same brain, embodied in a mobile app. An interactive, conversational Robot you talk to, that briefs you, answers questions about your business and acts on what you ask, wherever you are.

- Conversational, voice and chat, on iOS and Android
- Your daily brief, read aloud and interactive
- Ask your business anything, on the move
- Push the moments that matter, straight to your phone

FORM FACTOR — INTERACTIVE MOBILE APP

Desk droid

A companion that sits on your desk and shows you what it means

A desk-sized droid with a screen and a presence. It talks with you like a person, and uses its display to show the visual context, highlighting what matters, surfacing your tasks and walking you through the day.

- Speaks with you, and shows the visuals as it does
- Highlights the numbers, tasks and moments that count
- A visible presence on the desk, always briefed
- Screen-led context so nothing is lost in words

FORM FACTOR — DESK GADGET WITH A DISPLAY

Humanoid & lifestyle Robots

Intelligence, embodied, and part of everyday life

The fullest embodiment. Humanoid and classically life-styled Robots that carry the same brain into the room, greeting people, gesturing as they speak and taking a place in how you live and work.

- Humanoid and life-styled forms, embodied presence
- Greets, briefs and gestures as it speaks
- The same brain, now standing beside you
- Reception, exhibitions, hospitality and the home

FORM FACTOR — HUMANOID AND LIFE-STYLED ROBOTS

At a glance

TIER	WHAT IT IS	FORM FACTOR	BEST WHEN
Cloud SaaS platform	The full brain as a dashboard	Web, any screen	Live fast, on your own data
App Robots	A conversational Robot in an app	Mobile	You run the business on the move
Desk droid	A desk companion with a screen	Desk gadget	You want presence and context
Humanoid Robots	Intelligence, fully embodied	Humanoid & life-styled	You want the brain in the room

See it on your own data

Book a 30-minute demo, or ask us about early access to the Robot tiers.
